

Q: "Is the person in Image A the same individual as the person in Image B?"

Image A (96s)

Image B (50s)

Image A (95s)

Image B (110s)

Both pairs show two clearly different people wearing similar clothing; the model declares them the same person. Their feature similarities (0.89, 0.80) sit near the same-person median (0.90): the model matches OUTFIT, not identity.

InternVL3-8B: "Yes" (same person)
two different people, similar blue shirts

InternVL3-8B: "Yes" (same person)
two different people, similar chainmail armour
